Broadstick Modular Keystone Faceplates

The Broadstick modular faceplates provide a high quality connection for distribution areas, desk, etc. This keystone faceplate allows fast installation for voice, wireless and data links and provides easy movements, installations and changes.

The modular keystone faceplate can be used with all Broadstick Keystone modular jacks.

Modular Faceplates	
BSFPTK1	Keystone Modular Faceplate 1 port
BSFPTK2	Keystone Modular Faceplate 2 ports
BSFPTK4	Keystone Modular Faceplate 4 ports

These faceplates includes blue and red selectors to define if the port will be for voice or data without using jacks of different colors.

All Broadstick products are tested in fabric.
