

## **Broadstick 1U, 2U, 4U**

### **High Density Cage**

*BS-HD144CG – 1U 144 fibers ODF*

*BS-HD288CG – 2U 288 fibers ODF*

*BS-HD576CG – 4U 576 fibers ODF*

This panel has been designed for racks of 19” and supports 144 fibers on 1RU or 288 fibers in 2U or 576 fiber in 4U.

All Broadstick panels and cassettes provides a precise fiber connection and it compliants with the Industry standard requirements.

**BROADSTICK**

This high density cage is designed to manage and organize fiber in areas where space is very limited. They can also be used to manage cable from outside the facility. It can be used as an interconnect or cross-connect in any telecommunications rooms. It also allows to grow modular in this cage.

#### **DETAILS:**

RACK	Standart 19”	Fibers	Up to 144 Fibers per rack unit
Standart compliant	TIA/EIA	Installation	Telecom Rooms, racks and cabinets
Dimensions	483mm x 350mm x 1U/2U/4U	VAD	High Density
MTP/MPO Loss	0.70db or 0.35 db Low Loss	Compliant	RoHS

**High Density LC**

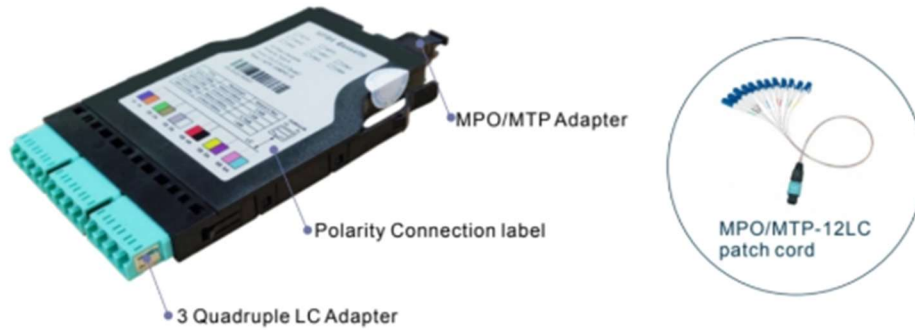

**UP To 144 LC fibers in 1U via MPO Cassettes**

**UP to 144 LC fiber splicing**

**MTP 8 TO MPO 12 TRANSITION**

**12 LC adapters or 6 MPO adapters**
