

Broadstick Toolless Blanking Panel

Broadstick provides custom blanking panels.

The Broadstick blanking panels provides a complete toolless snap-in design. Cantilevered sealing vanes eliminate the gap between adjoin blanking panels or with installed equipment

The blanking panels of 19" can be provided by 1U, 2U and 3U for better flexibility. Can be provided in Black or White.

It provides a 99.97% effective seal. Meets the EIA-310-E specification
