

Fiber Optic Plastic Clamp with S Hook

BSTPCL

Broadstick provides high quality fiber optical plastic clamps with S Hook.

This fibers optic clamp with S Hook is a reliable FTTx solution and supports up to 230Kg of tension.

It is an effective cost and time saving solution for cabling. The plastic clamp is UV resistant and has aluminum S Hook.

DETAILS:

Color	Black	Type	Strong Tensile
Resistant	UV Resistant	Surface Treatment	Polishing
Max Load	230 Kg	Drop Fiber Managing	1-2 pair
Material	Plastic and S Hook Aluminum	Structure	Suspension Clamp

FEATURES:

- Ideal for FTTx applications.
- For managing the fiber optic drop cables 1-2 pair.
- Support and tension flat electrical wire.
- Effective and time saving for cabling.
