

## Media converter

### 10/100/1000Base-TX to 100/1000Base-FX

BSMC-1G1SC1RJ

This media converters support IEEE802.3 10Base-T, IEEE802.3u 100Base-TX/FX standards

The Broadstick OEM fiber optic media converters provide a high quality connection for telecom rooms, equipment distribution areas, desk, etc.

It converts optical signal of 10/100/1000 SFP fiber port to 10/100/1000 Ethernet ports.

This can be used in the network to support new applications in large distances.

These media converters are manufactured using the best quality components available. Our commitment to quality means we produce a consistent, standardized product, purpose-built for today's top Equipment Manufacturer (OEM) specifications.

#### Features

Type	Unmanaged	Type	Stand-alone
RJ45	10/100/1000Mbps	SC port	10/100/1000Mbps
Power	100/240V AC	Pass Through Mode	12KBytes
TX Power	-20 to 70 °C	Ports	RJ45 to 1 SFP port

All Broadstick media converters are tested in fabric.
